TECHNICAL SKILLS

✓ HTML5, CSS3 ✓ JavaScript ✓ ReactJS ✓ MaterialUI ✓ C/C++ ✓ MySQL ✓ PHP ✓ UI/UX

EXPERIENCE

- ✓ **Junior Software Developer: Amruj Global Solutions, Sangli** Dec 2023 - June 2024
- 1. Human Resource Management System**
- Developed and implemented new components using React component library Material-UI to enhance user experience.
 - Utilized APIs to fetch and display data dynamically, ensuring seamless integration with backend services.
 - Performed CRUD operations to manage data effectively across various sections of the application.
 - Managed application state using State Management techniques, including props and context, to maintain efficient data flow.
 - Spearheaded the development of key modules including the Department, Designation, and Job Requirement sections.
 - Conducted thorough debugging to identify and resolve issues, ensuring high-quality code and optimal application performance.
- 2. Dezire Elevators**
- Collaborated on a project for an elevator manufacturing company, focusing on frontend development using React component library Material-UI.
 - Debugged existing code to enhance functionality and resolve issues.
 - Made minor adjustments to components to improve usability and maintainability.
 - Added new features to enhance the application's capabilities, contributing to a better user experience.
- ✓ **Web Development Intern: Wolfox Services Pvt. Ltd. Kolhapur** Sept 2022 - Nov 2022
- Spearheaded the development of "Memories Event Services," a web-based platform allowing users to discover and access nearby event services. Leveraged PHP, MySQL, HTML, CSS, and JavaScript to create an intuitive and responsive application, empowering users to search for event planners, venues, caterers, and other services within their vicinity.
 - Took a pivotal role in back-end development utilizing PHP. Managed project timelines and coordinated functionalities to ensure a seamless user experience. Collaborated closely with team members to ensure seamless integration of modules and adherence to project milestones.

PROJECTS

- ✓ **Flower Shop Management System**
- Led a team in conceptualizing, designing, and developing Flowerlink, a comprehensive flower shop management system aimed at streamlining inventory management, sales, and customer interactions.
 - Played a key role in system design and development, utilizing C# for server-side scripting, ASP.NET for the frontend interface, and MySQL for database management. Worked closely with team members to ensure smooth integration of modules and adherence to project milestones.
- ✓ **Bus Pass Management System**
- A comprehensive bus pass management system designed to streamline the process of creating, and managing bus passes for commuters. Utilized PHP, MySQL, HTML, CSS, and JavaScript to create an intuitive and efficient platform for both administrators and users.
 - Acted as the lead developer responsible for database design using MySQL, front-end development using HTML, CSS, and JavaScript, and back-end development using PHP.
- ✓ **Recruitment Management System**
- Orchestrated the development of CampusRecruit, an efficient Recruitment Management System tailored for the college's Training and Placement Office (TPO). Utilized PHP, MySQL, HTML, CSS, and JavaScript to create a comprehensive platform facilitating seamless interaction between students, recruiters, and TPO administrators.
 - Led the development team, overseeing system architecture, database design using MySQL, and front-end development employing HTML, CSS, and JavaScript. Coordinated tasks, ensured adherence to project timelines, and facilitated seamless integration of system functionalities.

EDUCATION

- ✓ **Master of Computer Application | 11/2021-8/2023**
KIT's Institute of Management Education and Research, Kolhapur 77.4%
- ✓ **Bachelor of Computer Science | 7/2018-5/2021**
Smt. Kasturbai Walchand College, Sangli 77.3%

CERTIFICATION

- ✓ Maharashtra State Certification Course in C and C++ ✓ Cisco JavaScript Essentials 1
✓ Udemy SQL Bootcamp with MySQL, PHP, and Python: 5 Courses in 1 ✓ Edureka AWS Beginners Course
✓ Training on ui/ux design at internship studio

HOBBIES AND INTERESTS

- ✓ Drawing ✓ Cycling ✓ SkinCare
